It is a great affliction for a woman to have her face disfigured by pimples or any form of eruptive disease. It makes her morbid and sensitive, and robs her of social enjoyment. Disfiguring eruptions are caused by impure blood, and are entirely cured by the great blood-purifying medicine—Dr. Pierce's Golden Medical Discovery. It removes from the blood the poisonous impurities which cause disease. It perfectly and permanently cures scrofulous sores, eczema, tetter, boils, pimples and other eruptive diseases which are caused by the impurity. It increases the action of the blood-making glands and thus increases the supply of pure rich blood. "For about one year and a half my face was very badly broken out," writes Miss Carrie Adams, of 116 West Main Street, Battle Creek, Mich. "I spent a great deal of money with doctors and for different kinds of medicine, but received no benefit. At last I read one of your advertisements in a paper, and obtained a bottle of Dr. Pierce's Golden Medical Discovery. Before I had taken one bottle of this medicine I noticed a change, and after taking three bottles I was entirely cured. I can well recommend Dr. Pierce's Golden Medical Discovery to any one similarly afflicted."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."

The People's Common Sense Medical Adviser, a book containing 1008 pages, is given away. Send 21 one-cent stamps for expense of mailing only, for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

A petition with the requisite number and signers was presented to Judge Ford Saturday asking for a vote on the whiskey question in the west park and court-house precincts of Lancaster.

News has reached here of the death of the second daughter of Mr. and Mrs. John Baughman, Miss Sadie, who was married some little time ago to a young man of Paris. Her death occurred at that place.

The cry of water was a false alarm. So insignificant was the flow and the Artesian Well Company were so discouraged that they were about to abandon the work, when the city council offered them \$500 to bore another 500 feet. It will be necessary to order heavier machinery.

The Inimitable Phil Hunter Company will appear at the court-house here Wednesday evening, Feb. 4th and offer among its attractions, Mr. Phil Hunter, "The Wizard," as a wonderful performer in the art of legerdemain; Carl Anderson as a first-class humorist and cartoonist; and Verne Moore as pianist, cornetist and violinist of superior order.

Mrs. Margaret Marre died at an early hour Saturday at the home of her son-in-law, R. H. Tomlinson at the advanced age of 80. Two weeks ago she was severely burned about the feet and knees by her clothing catching fire at an open grate, and she gradually sunk from the injuries. The funeral was held Sunday afternoon at the residence by Rev. Chumbley, assisted by Dr. E. H. Pearce. Two sons, John S. Marre, of Richmond, and W. S. Marre, of Knoxville, and three daughters, Meddames R. H. Tomlinson, Robert Kinnaird and G. B. Swinebroad, are left to mourn a good mother's departure.

MATRIMONIAL.

M. P. Shadoan and Miss Mary A. Sligleton, both of the Southern End, were married at Supt. Garland Sligleton's by that gentleman Friday.

Rather a romantic occurrence took place last Friday night at the dance at Henry Mahaffy's. Belter Mullins and Miss Neva Daugherty, engaged to be married in a few days, were present, as was also Chas. Durham, who was one of the principals in the little romance. When the music started, Durham and Miss Daugherty, by chance or otherwise, were together and danced one or two sets together, but soon they retired from the room and much to the sorrow of Mr. Mullins, for when next seen it was Mr. and Mrs. Durham—Livingston Cor. Mt. Vernon Signal.

The following love story, with its ups and downs, is sent from Owensboro: A happy ending of domestic troubles is the marriage of Mr. Charles P. Dieco and Mrs. Augusta Dieco, which was solemnized in this city, the Rev. W. A. Lombard officiating. Some years ago Mr. and Mrs. Dieco came here from Switzerland. After a married life of 18 years they separated and Mrs. Dieco obtained a divorce. Several weeks ago Mr. Dieco was taken ill. Learning of her former husband's serious illness, Mrs. Dieco obtained the consent of the physician to nurse him. By her careful nursing and unremitting attention the patient recovered. Then both discovered that the old love had been rekindled and they decided to re-marry.

Dislocated Her Shoulder.

Mrs. Johanna Soderholm, of Fergus Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back in place as soon as possible, but it was quite sore and pained her very much. Her son mentioned that he had seen Chamberlain's Pain Balm advertised for sprains and soreness and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep, which she had not done for several days. The son was much pleased with the relief it gave his mother and he has since recommended it to many others. For sale by Craig & Hocker.

Signor Marconi, in reply to a query regarding the rate to be charged for wireless messages, said: "You know the cable companies started at the rate of \$5 a word and now they have come down to 25 cents a word. In the usual course of events it is quite probable that we, beginning at 10 cents per word, would be able to eventually transmit messages across the Atlantic at a one-cent rate."

Judson Lyons, the colored register of the treasury, says President Roosevelt is traveling the path of his predecessor, and any republican successor he may have will also have to contend with the "ungodly prejudice" against the Negro.

A CALL for a primary on May 9 to make nominations for State offices was issued by the Democratic State Executive Committee, which met in Louisville Saturday. The primary is to be conducted under the State primary law, and each candidate will be assessed to pay the expenses. It was decided to continue the present party organization until 1904, when the various State committees will be named at the convention to elect delegates to the National convention. All democrats desiring to become candidates must notify in writing the chairman of the State Executive Committee not later than April 1. The subcommittee, composed of Messrs. Allie Young, John M. Lassing and Mott Ayers, was empowered to decide how the names should go on the ballots. The assessment for the offices as fixed by the call are as follows: Governor, \$2,500; lieutenant governor, \$800; attorney general, \$800; auditor, \$2,200; treasurer, \$1,200; secretary of State, \$1,800; superintendent of public instruction, \$1,800; clerk of court of appeals, \$1,800; commissioner of agriculture, \$1,700, making the total cost of holding the primary \$10,000.

THE Washington Post propounds these pertinent interrogatories: "Why is it that politicians, white and black, can not leave the Negro alone? Why must somebody be forever experimenting with this quiet, contented toiler, who makes his own livelihood with his hands or his brains, as the case may be, and neither appeals nor needs to appeal to doctrinaires or agitators for anything that he really wants? Why must the Negro be exploited, discussed, treated as an awful example here, probed and prodded and inspected as a problem there? Why not merge him with the general mass of the population, label him as a plain American citizen and leave him to work out his own destiny in his own way?"

BISHOP HARTZELL, of the Methodist Episcopal church, who has spent the last six years in Africa, is thoroughly convinced that the cause of the British against the Boers was just, and that the war, in spite of its ravages, will prove the greatest blessing that South Africa has ever had. The Bishop gives a most encouraging account of the reorganization and development of South Africa under British rule, and of the hearty co-operation of the Boers with the new order of things.

JOHN MITCHELL has refused a \$10,000 residence tendered him by the miners' union—a circumstance which will keep on Deacon Har's conviction that Mitchell is a visionary and a crack. So far from refusing anything that is offered him, the deacon is in the habit of reaching forth and acquiring anything that he wants whether it is submitted to his acceptance or not. The refusal to accept the residence is another proof of Mitchell's greatness.

SOME comment is made on the fact that while the price of petroleum for home consumption is raised, the price remains unchanged for export. The explanation of this is simple enough. There is Russian competition with the Standard Oil Company in Europe, and there is a duty on refined petroleum in the Dingley tariff. For the discrimination which the tariff affords, there is no restraint on any of the anti-trust bills before Congress.

TEDDY's love for the sons of Ham can be imagined from the following sent from Washington: "Three Negroes were among the earliest guests to arrive at the White House reception for the judiciary. They were cordially greeted by President Roosevelt. Southern Congressmen and Senators present left the reception, some of them declaring that they would attend no more receptions if Negroes were to be invited."

EDITOR CAMPBELL, of the Somerset Journal, talks horse sense when he says: "Next to being an editor the easiest job in the world is telling an editor how to be an editor."

THE House Military Committee will not touch the canteen question this winter. With the Rev. Wilbur T. Crofts and the Woman's Christian Temperance Union on one side, and Secretary Root and the army on the other, the committee deems it more prudent to go with the former. Saloons and much worse places just outside of military reservations are assured of at least one more year of good business.

ACCORDING to Youtsey, Charles E. Finley is another. He denies the statements made by Finley in an interview at Indianapolis to the effect that his confession to the grand jury of Franklin county was brought about by torture or ill-treatment. He asserts, also, that he has received no promise of a pardon or commutation of sentence and that his story was told freely, frankly and voluntarily.

ALLIE YOUNG, chairman of the State Central and Executive Committee, has sold his 180-acre farm in Montgomery county for \$16,000. As that is the exact amount Mr. Young figures that a State primary will cost, who knows but what he intends to hold one at his own expense? Would Woodson and Meacham kick on that?

LET us rejoice and be glad. It has been discovered that the Sultan of Jolo is not dead. On the contrary he is making preparations to visit the United States.

POLITICAL.

Carter Harrison has announced for mayor of Chicago again.

Lorrie Andrews was appointed attorney general of Hawaii to succeed Gov. Dole.

A postoffice has been established at Garlin, Adair county, and at Stearns, Whitely county.

A tangle is threatened between Great Britain and the United States over the Cuban reciprocity treaty.

Judge W. R. Day accepted a tender of appointment as associate justice of the United States supreme court.

Chairman Allie Young, of the democratic executive committee, will establish headquarters at Mt. Sterling. Leslie Combs has arrived in Guatemala City to assume the duties of American Minister, as successor to Dr. Hunter.

Congressman Chester I. Long was nominated for United States Senator by the Republican caucus of the Kansas Legislature, all the other candidates withdrawing.

Judge Lefe S. Pence is a democratic candidate for Senator from the district, composing the counties of Marion, Washington and Taylor. He has no opposition.

The Nebraska populists want to break away from the democrats, but we shall never, no never, allow them to go. What is home without a pop?—Cynthiana Democrat.

At Nashville Hon. J. D. Johnson, floor leader in the House for the temperance side, said the Adams Bill would certainly pass the House. He gave it as his opinion that there would not be over 25 votes in opposition.

The Panama canal treaty was transmitted to the Senate and was referred to the committee on foreign relations. The president and members of the cabinet believe the treaty will be ratified at an early date without serious opposition.

Secretary Hay and Sir Michael Herbert, the British Ambassador, have signed a treaty providing for the settlement of the Alaskan boundary question. The treaty will be submitted to the United States Senate at an early date.

Late Saturday afternoon the democrats in the Colorado Legislature mustered all their forces in joint session and cast 51 votes for Henry M. Teller, who was declared elected United States Senator by W. H. Adams, president of the joint body.

The Tennessee Senate passed the Adams bill extending the operations of the "four-mile" liquor law to towns of less than 5,000 inhabitants. The provisions of the measure are such that all towns in Tennessee save eight may now prohibit the liquor traffic if a majority of the voters so desire.

In his first message to the Tennessee Legislature, Gov. Frazier recommends that there be no haste in retiring that portion of the State's bonded debt which is bearing a low rate of interest and has some time to run. Instead, he advises that the surplus money left after making the normal requirements of bonds, be devoted to improving the condition of the public schools, especially those in the rural districts.

Former Senator E. O. Wolcott has abandoned the contest for the senatorship in Colorado, and has issued a statement urging the people of the State to acquiesce in the re-election of Senator Teller. He says the election was tainted with fraud, but Teller was in no sense a party to that fraud. Incidentally he makes some caustic remarks in reference to the State Government and republican leaders who failed to support his plans.

The intercollegiate declamatory contest will be held in Lexington Feb. 26. The colleges that will have representatives are: State College, Kentucky University, Kentucky Wesleyan, Central University and Georgetown College.

L. E. Mason, a walking boss on the L. & N.'s new road from Jellico to Knoxville, shot and instantly killed a Negro laborer at Dosette Camp. The Negro refused to work or to vacate a company house and threatened to kill Mason with a club.

THIS AND THAT.

A mob at Stratford, Ia., raided a coal train.

Georgetown went "wet" Friday by a majority of 101.

Mrs. Drusilla McCarty Smith, died at Versailles at the age of 94.

W. H. Berard has been appointed postmaster at Wesley, Russell county.

A 13-year-old girl in New York State made a confession that she systematically administered poison to her foster parents with the hope of killing them, so that she would obtain their property.

Editors are awfully smart people. For an instance: A country poultry raiser wrote the editor and asked what was the matter with his hens. Every morning he found two or three of them lying on their backs under the roost stiff and stark, with their legs drawn up. The editor answered: "My dear sir, your hens were dead."

Craig & Hocker guarantee every bottle of Chamberlain's Cough Remedy and will refund the money to any one who is not satisfied after using two-thirds of the contents. This is the best remedy in the world for la grippe, coughs, colds, croup and whooping cough and is pleasant to take. It prevents any tendency of a cold to result in pneumonia.

The word "habit" is one of the most peculiar in our language. If you take off the first letter, you still have "a bit." If you remove the second, the word "bit" is still on hand. Decapitate that by removing the "h" and it is still a word. Take off the "i," and you find the old "habit" not "it" totally destroyed.

"The nicest and pleasantest medicine I have used for indigestion and constipation is Chamberlain's Stomach and Liver Tablets," says Melani F. Craig, of Middlegrove, N. Y. "They work like a charm and do not gripe or have any unpleasant effect." For sale by Craig & Hocker, Druggists.

THE treat given the Sunday school children of the Christian church in the lecture room of that church Saturday afternoon was a thoroughly enjoyable occasion. Nearly all of the scholars were present and full justice was done the liberal supply of food and cake that had been prepared. A dozen or more active lady members waited on the children and made all have a good time.

THERE has been, and is yet, some kicking on the "raises" made by the board of supervisors which completed its labors last week. The amount of the raise is \$232,112, making the total assessment of Lincoln county a fraction over \$5,000,000, or \$200,000 less than it was seven years ago. Greater the wealth of the county, less the county levy will be, so it will be seen that by the raise, we stand a good show to have the levy decreased and little danger of interference on the part of the board of equalization at Frankfort. It is not our purpose to defend the board of supervisors in their work, but knowing the members of it as we do, we are satisfied they did what they deemed their duty when and where they made the "raises" and if they have committed error it was of the head and not of the heart. The men composing the body this year are representative citizens, who served their county at their own loss and who we believe did the very best they could. Save your kicking for deeper spurring.

"Wine of Cardui is indeed a blessing to tired women. Having suffered for seven years with weakness and bearing-down pains, and having tried several doctors and different remedies with no success, your Wine of Cardui was the only thing which helped me, and eventually cured me. It seemed to build up the weak parts, strengthen the system and correct irregularities."

By "tired women" Mrs. Adams means nervous women who have disordered menses, falling of the womb, ovarian troubles or any of these ailments that women have. You can cure yourself at home with this great women's remedy, Wine of Cardui. Wine of Cardui has cured thousands of cases which doctors have failed to benefit. Why not begin to get well today? All druggists have \$1.00 bottles. For your stomach, liver or bowel disorder Theodor's Black-Draught should be used.

Don't Worry.

This is easier said than done, yet it may be of some help to consider the matter. If the cause is something over which you have no control it is obvious that worrying will not help the matter in the least. On the other hand, if within your control you have only to act. When you have a cold and fear an attack of pneumonia, buy a bottle of Chamberlain's Cough Remedy and use it judiciously and all cause for worry as to the outcome will quickly disappear. There is no danger of pneumonia when it is used. For sale by Craig & Hoeker, Druggists.

COMMON MISTAKE.

The teacher had been explaining to the class in etymology the meaning of the word "gamy" as an ending in compounds, and had taken as illustrations the three words "polygamy," "bigamy" and "monogamy."

"Polygamy, children," she explained, "is the condition of having several wives; bigamy, the condition of having two wives; and monogamy that of having only one wife."

After discussing various other roots and words, she reverted to those she had first explained, and put questions to test the knowledge of her pupils.

"Now, children," she said, "when a man has many wives, or a woman has many husbands, what do we call it?"

"Polygamy," was the response.

"And what is it when there are two wives or two husbands?"

"Bigamy."

"Very good. But if the right state of affairs exists, and a man has only one wife and a woman only one husband—what is it then?"

"Monogamy."—Public Ledger.

A Gold Brick Variation.

"And so," said Reuben, with every indication of being greatly excited, "the brick's solid gold, is it?"

"Indeed it is," replied the inquisitive hark.

"And you want only \$2,000 for it?"

"That's all you need pay me—\$11 wasn't hard up I wouldn't even look at less than \$5,000."

"I'll take it," said Reuben, with suppressed excitement, and he counted out the nice, crisp new bills.

Half an hour later, as Reuben, having thrown the brick to a dark alley, was driving rapidly home, he soliloquized:

"Gee, but I'm lucky. I was afraid some of the ossifiers would catch me 'ith them green goods on me 'at I'd jst bought from them sharpers. I reckon that gold brick man thinks he skun me. Git up, Mollie."—Baltimore American.

Heretofore doctors have been contented with their efforts to keep men alive, but Dr. Crile, of Cleveland, O., has discovered a fluid which he calls "adrenalin," and which injected into veins, will restore life; that is dog life, and possibly human life. A dog that had been killed by electricity and was dead for 15 minutes was brought to life and resumed his old tricks of chasing cats. Another experiment with his elixir of life kept a dog alive 10 hours after his head had been cut off.
